About Me

As a Front End Developer specializing in ReactJS and a UI Developer/Designer, I am driven by my passion for creating visually appealing and seamless user interfaces. With a strong foundation in front end development and a keen eye for design, I strive to deliver exceptional web experiences that captivate users.

Professional Experience

Tech2Globe Web Solutions LLP, New Delhi
Front End Developer (ReactJS) and UI Developer/Designer
Feb 2022 – Oct 2022

Key responsibilities:
- Developing responsive web interfaces using ReactJS, HTML, CSS, and JavaScript.
- Implementing UI components and features while adhering to high-quality coding standards.
- Translating design concepts into visually appealing and user-friendly interfaces.
- Applying UI/UX design principles and best practices to create intuitive user experiences.
- Collaborating with designers, back end developers, and stakeholders to align on project goals.
- Conducting thorough testing and optimization to ensure high performance and cross-browser compatibility.
- Staying updated with the latest trends, tools, and technologies in front end development and UI/UX design.
- Documenting code, processes, and project-related information for knowledge sharing and maintainability.
- Communicating effectively with team members and stakeholders to provide updates and address challenges.

AsiaTech Hospitality Solution Pvt Ltd, Noida UP
